

I'm Fen, from Fen's Secret Kitchen, and I'm delighted to be joining the Indian Society of South West Wales MELA.

I have over eight years of experience with Thermomix as an owner and joined the team a few years ago to sell Thermomix and represent the brand.

I'm based locally in Swansea but cover the UK with sales, online customer support, including Zoom classes & updates & Hint & Tips sessions. Plus events & demonstrations.

My colleague Amy and I will be demonstrating some dishes in the Cooking Workshop using Thermomix, at 2pm in the Bar Area. You'll see the Thermomix in action and taste results! We'll display the ingredients for you to check allergies, etc.

We'll be around, so please do come over and say hello during the day too!

So, what is a Thermomix? Well, it's a kitchen powerhouse, it does the job of over 20 gadgets in one, with a recipe platform Cookidoo, providing digital guided cooking on over 90,000 recipes. Or go off piste or use one of the 20 Modes.

You can mill & roast spices, serve a banquet, make store cupboard staples, refreshing drinks & cocktails....

You'll save money and reduce food waste with it, and you know exactly what's going into your food. Use it well and it will pay for itself. It even cleans itself!

If you are interested in getting one, we'll run through the options to buy a Thermomix, including a 0% finance offer, buy outright or join the team to try and earn one for free.

And if you'd like to host an evening demo at your home with a few friends, that's a bit of fun and there's a thank you gift too..

Looking forward to meeting you.

Fen & Amy x
